

Aatish P

Aspiring AI & Backend Developer

[Portfolio](#)[Aatish-org](#)[Aatishofficial](#)aatishoffic@gmail.com

7395807187

PROFESSIONAL SUMMARY

Aspiring Technical Associate with hands-on experience across software development, AI-powered products, and data workflows. Experienced in working closely with founders on real-world product development, contributing across development, QA, debugging, feature execution, and product improvement. Worked on AI and machine learning applications involving Generative AI, computer vision, and intelligent automation, while developing practical experience in building and integrating software solutions. Actively contribute to student technical communities through project execution, technical coordination, and peer collaboration, while regularly engaging with startup, founder, and technology meetups to learn from industry professionals and gain exposure to real-world product development, entrepreneurship, and emerging technologies. Brings structured problem solving, adaptability, technical communication, and a strong willingness to learn and contribute in fast-paced engineering environments.

EXPERIENCE

WESECURE | DATA & BACKEND DEVELOPER

FEB 2026 -- MAY 2026 | Chennai, India

- Worked closely with the founders on backend development and data workflows, contributing to product requirements and implementation.
- Integrated machine learning and computer vision solutions while supporting testing, debugging, and deployment.

BOTHRA SOLUTIONS | PRODUCT & TECHNICAL ASSOCIATE

JUL 2026 -- Present | Chennai, India

- Worked closely with the founders as a developer on **KonsaPehnu** (konsapehnu.com), contributing to product features and development.
- Worked across development and QA to build, test, and improve features, while presenting the product and technical implementation to investors.

PROJECTS

AI-POWERED SMART EMAIL ASSISTANT AGENT | PYTHON, FASTAPI, GEMINI API

[GitHub](#)

- Built an AI application to classify, prioritize, summarize, and process email conversations using Gmail and Gemini APIs.
- Implemented OAuth, conversation memory, automated workflows, and human-in-the-loop approval.

AUTOMATIC NUMBER PLATE RECOGNITION SYSTEM | PYTHON, YOLO, OPENCV

- Developed a computer vision pipeline to detect vehicle plates and extract registration numbers.
- Applied image preprocessing, OCR correction, validation, and error handling to improve result reliability.

VULNERABILITY SCANNER | PYTHON, WEB APPLICATION

[Live Demo](#)

- Built a web-based application to identify and analyze potential vulnerabilities in web applications.
- Implemented automated scanning workflows and structured vulnerability reporting.

EDUCATION

B.TECH, COMPUTER SCIENCE & ENGINEERING

SRM INSTITUTE OF SCIENCE & TECHNOLOGY

2023 -- 2027 | Chennai, India

CGPA: 8.7 / 10

GRADE 11 TO 12 - PCM + CS

LITTLE KINGDOM SENIOR

SECONDARY SCHOOL

Overall: 75 %

TECHNICAL SKILLS

Python

Java

SQL

Data Structures & Algorithms

Object-Oriented Programming

Web Development

Backend Development

Machine Learning

Git & GitHub

LANGUAGES

English

Fluent, Professional

Malayalam

Fluent, Professional

Tamil

Fluent, Professional

AREAS OF INTEREST

Software Development

Data Analytics

Machine Learning

Computer Vision

Product Development

Artificial Intelligence & GenAI

Backend & API Development

KEY COMPETENCIES

Debugging

Execution

Rapid Learning

Structured Problem Solving

Analytical Thinking

Technical Communication
